A decision for Ali's C Store

Two separate jobs. Local discoverability is how people find the shop on Google and the other maps. A website is the page they land on. You can buy either one, or both.

Prepared by Jeremy Howell · unlovedproductions · Forged in passion

Take this with you. Nothing starts until you mark the boxes and pay.

The choice

Local discoverability

No website in this price. Get Found is the listing only. Get Chosen adds the review card, the other maps, and a monthly report.

$660 or $2,060

Website

No Google listing work in this price. Essential is the shop site. Standard is that site with more rounds of fixes and a second domain.

$1,300 or $2,100

Pick one local package, one website package, or one of each. You cannot pick both local packages, and Standard already includes Essential. Setup is half before any work, and half the day the work you bought is finished.

What is true today

On October 5, 2026, Google search for **“smoke shop taft, ca”** with the area set to Taft showed three tobacco shops. You were first.

	ALI'S C STORE	FRED'S CIGARETTE STORE	TAFT DISCOUNT CENTER
Order that day	1st	2nd	3rd
Google rating	5.0 · 8 reviews	4.1 · 85 reviews	4.3 · 9 reviews
Google says you close	10 PM	11 PM	8 PM
Address	1048 Kern St	1006 6th St	1117 Kern St #3

You win the stars. You lose the pile of proof. A careful customer can still pick Fred's because 85 reviews feels safer than 8. Your phone number is already on the listing, **(661) 745-4323**, and there is at least one photo. A website in your name was not found. Rankings move. If your phone shows a different order, we go by your screen.

The gap this packet is about: not “can they find you.” They can. It is whether you control that listing, whether 8 reviews becomes enough to beat 85, and whether you have a page of your own when they tap through.

Local discoverability

This does not include a website. An older price included a one-page site. That page is not sold anymore, so these prices are lower.

WORK	GET FOUND · $660	GET CHOSEN · $2,060
Claim or create your Google listing, with you there. Correct hours, phone, categories, and real photos.	**Yes**	**Yes**
Counter card so a customer can leave a Google review in about 20 seconds. No discounts. No hiding bad reviews.	No	**Yes**
Same name, address, phone, and hours on Apple Maps, Bing, Yelp, and the smoke-shop directories.	No	**Yes**
After it is done: two Google updates a month, replies to new reviews, and a one-page report.	No monthly	**$120/month**

Website

This does not claim your Google listing. That stays in the local packages. The domain is registered in your name.

WORK	ESSENTIAL · $1,300	STANDARD · $2,100
Home, shop, visit, and contact pages, built for a phone, with a 21+ notice.	**Yes**	**Yes**
One design, one round of revisions.	**Yes**	Two rounds
Visit page uses the same address, hours, and phone as the listing.	**Yes**	**Yes**
Two weeks of fixes after launch, and one extra domain that points at the main one.	No	**Yes**
Monthly fee for the site itself.	None	None

Most of a combined job is done in about 3–4 weeks. Local work needs you in the store once. Google sometimes verifies by video that day, and sometimes by a postcard.

What you have to do

- If you buy local work: about 30–40 minutes in the store to confirm hours, the public phone number, and what you legally sell, then verify Google and let me photograph the store. The listing stays on an email you control. I am a manager. You can remove me.
- If you buy Get Chosen: put the review card on the counter and ask customers.
- If you buy a website: confirm what the pages should say. Pay half the combined setup before work starts. The other half is due when everything you marked is finished.

What this will not do

> **No promised ranking. No promised number of new customers.** Nobody honest can sell you “#1 on Google” or “30 new customers a month.” What you can judge is whether the work got done, and whether the monthly numbers move compared with a screenshot we take before launch.
>
> Google and Facebook heavily restrict tobacco and vape ads. This does not buy ads.
>
> A website will not list products California does not allow you to sell, and it will say the store is 21+. You confirm what is on the shelves before any product text is written. If you buy no website, nothing about your products is published.

What you keep if you stop

- If you bought a website: the domain stays in your name, and you keep the site files.
- If you bought local work: the Google listing stays yours. Removing me does not delete it.
- Any monthly fee runs for 3 months, then you can stop. Setup is not refunded once that half of the work is delivered.

What you would pay

Add the local price and the website price. Half of that sum is due before work starts. The other half is due when the work you marked is finished. The local prices are 20% under my standard rate because you would be one of my first shops. Essential and Standard are not discounted. I will not write your review for you.

LOCAL	WEBSITE	SETUP	DUE BEFORE WORK	MONTHLY
Get Found	None	$660	$330	None
Get Chosen	None	$2,060	$1,030	$120
None	Essential	$1,300	$650	None
None	Standard	$2,100	$1,050	None
Get Found	Essential	$1,960	$980	$69
Get Found	Standard	$2,760	$1,380	$69
Get Chosen	Essential	$3,360	$1,680	$189
Get Chosen	Standard	$4,160	$2,080	$189

$69 keeps a website online, renews the domain, and covers one small text change a month. $120 is the listing report and Google updates, with no website. $189 is both. A monthly fee runs 3 months, then month to month. If the monthly is $189, you can pay the year of care up front for $2,079 instead. That does not replace the setup.

How we will know it worked

The baseline from October 5, 2026 is: first for “smoke shop taft, ca” in Taft, 5.0 stars, 8 Google reviews. The report, if you buy Get Chosen, adds calls, direction requests, and site visits when a site exists. I am not promising you stay first.

Say yes, or don't

Mark one box in each group. “None” is allowed in either group. This page starts the work. A one-page agreement with these same terms gets signed before the first payment is spent.

Local discoverability

☐ None ☐ Get Found — $660 ☐ Get Chosen — $2,060

Website

☐ None ☐ Essential — $1,300 ☐ Standard — $2,100

☐ Not now

Questions before you mark anything: Do I show up on Google Maps today? Who owns the listing? What do you keep if you cancel? What number of customers am I promising? The answers are in this packet. If a later conversation contradicts this packet, this packet wins.
