# A decision for Ali's C Store

You already show up first for “smoke shop Taft.” Fred's is right behind you with far more reviews. This is what it costs to keep that spot and give people a reason to pick you.

1048 Kern St, Taft, CA 93268 · October 2026 · Take this with you. Nothing starts until you circle a letter and pay.

## The choice

**Get Chosen — recommended**

### $2,720 setup

+ $189/month after launch

Your Google listing under your control, your website, review cards, the same correct info on the other maps, and a one-page report every month.

**Get Found — smaller start**

### $1,320 setup

+ $69/month after launch

Listing and website only. No review cards, so the review gap stays as it is. No other-maps cleanup. No monthly report.

Setup is paid in three parts. Monthly starts when the site goes live, runs for 3 months, then continues only if you want it. Details are on the last page.

## What is true today

On October 5, 2026, Google search for **“smoke shop taft, ca”** with the area set to Taft showed three tobacco shops. You were first.

| | ALI'S C STORE | FRED'S CIGARETTE STORE | TAFT DISCOUNT CENTER |
|---|---|---|---|
| Order that day | 1st | 2nd | 3rd |
| Google rating | 5.0 · 8 reviews | 4.1 · 85 reviews | 4.3 · 9 reviews |
| Google says you close | 10 PM | 11 PM | 8 PM |
| Address | 1048 Kern St | 1006 6th St | 1117 Kern St #3 |

You win the stars. You lose the pile of proof. A careful customer can still pick Fred's because 85 reviews feels safer than 8. Your phone number is already on the listing, **(661) 745-4323**, and there is at least one photo. A website in your name was not found. Rankings move. If your phone shows a different order, we go by your screen.

**The gap this packet is about:** not “can they find you.” They can. It is whether you control that listing, whether 8 reviews becomes enough to beat 85, and whether you have a page of your own when they tap through.

## What you are paying for

| WORK | GET FOUND | GET CHOSEN |
|---|---|---|
| Claim or create your Google listing, with you there. Correct hours, phone, categories, and real photos of your store. | **Yes** | **Yes** |
| A phone-friendly website: hours, what you carry, directions, common questions, and a 21+ notice. Domain registered in your name. | **Yes** | **Yes** |
| Counter card with a QR code so customers can leave a Google review in about 20 seconds. No discounts for reviews. No hiding bad ones. | No | **Yes** |
| Same name, address, phone, and hours on Apple Maps, Bing, Yelp, and the smoke-shop directories that already list you. | No | **Yes** |
| After launch: site stays online, domain renewal, and up to one small text change a month (hours or phone). | **$69/mo** | **Included** |
| After launch: two Google updates a month, replies to new reviews, photo updates you provide, and a one-page report (calls, direction requests, site visits, new reviews). | No | **$189/mo** |

Most of the setup is live in about 3–4 weeks. Week 1 needs you in the store for a short visit. Google sometimes verifies by video that day, and sometimes by a postcard, which adds a few days.

## What you have to do

- About 30–40 minutes in the store: confirm hours, the public phone number, and what you legally sell, then verify Google and let me photograph the store.
- Use an email you control for the Google listing. You stay the owner of that listing. I am added as a manager so I can update it. You can remove me later.
- Put the review card on the counter and ask customers, if you choose Get Chosen.
- Pay the first setup payment before work starts.

## What this will not do

> **No promised ranking. No promised number of new customers.** Nobody honest can sell you “#1 on Google” or “30 new customers a month.” What you can judge is whether the work got done, and whether the monthly numbers move compared with a screenshot we take before launch.
>
> Google and Facebook heavily restrict tobacco and vape ads. This package does not buy ads. It fixes the free listing and gives you a site you control.
>
> The website will not list products California does not allow you to sell, and it will say the store is 21+. You confirm what is actually on your shelves before any product text is written.

## What you keep if you stop

- The domain stays in your name.
- You keep the website files.
- The Google listing stays yours. Removing me does not delete it.
- After the first 3 months of the monthly plan, you can stop with no penalty. The setup fee is for work already done and is not refunded once that stage is delivered.

## What you would pay

The prices below are 20% under my standard rate because you would be one of my first three shops. In return I ask for an honest review of the work and permission to show your site as an example. I will not write that review for you.

| | GET CHOSEN | GET FOUND |
|---|---|---|
| Standard setup | $3,400 | $1,650 |
| Your setup price | **$2,720** | **$1,320** |
| To start | $907 | $440 |
| When the site launches | $907 | $440 |
| 30 days after launch | $906 | $440 |
| Monthly, starting at launch | $189 | $69 |
| Minimum if you stop after 3 months | $2,720 + $567 = **$3,287** | $1,320 + $207 = **$1,527** |
| If you stay a year and pay monthly | $2,720 + $2,268 = **$4,988** | $1,320 + $828 = **$2,148** |
| Yearly care instead of monthly | $2,079 (one month free) | Not offered |

Yearly care replaces the $189 monthly. It does not replace the setup fee. First-year total on Get Chosen with yearly care: $2,720 + $2,079 = $4,799.

## How we will know it worked

The baseline from October 5, 2026 is: first for “smoke shop taft, ca” in Taft, 5.0 stars, 8 Google reviews. Once you are on the listing, the report adds calls, direction requests, and site visits. You decide from those numbers whether to keep the monthly plan. I am not promising you stay first. One search on one day is not a guarantee.

## Say yes, or don't

Circle one. This page is your instruction to start. It is not a long contract. A one-page agreement with these same terms gets signed before the first payment is spent.

**A.** Get Chosen — $2,720 setup + $189/month ☐

**B.** Get Found — $1,320 setup + $69/month ☐

**C.** Not now ☐

Questions before you circle anything: Do I show up on Google Maps today? Who owns the listing? What do you keep if you cancel? What number of customers am I promising? The answers are in this packet. If a later conversation contradicts this packet, this packet wins.
